Fun Safety Rules for Scouting for Bigfoot

Hands Off Evidence

Do not touch any Bigfoot evidence sites. Preserve footprints, hair samples, and other clues for the experts.

Stick to the Path

Just like Bigfoot, stay on the trail and avoid wandering off into the unknown!

Watch Your Footing

Expect uneven ground while walking on the hiking trail.

Buddy Up

Never scout alone! Have a friend or two for extra eyes and ears.

Stay Hydrated

Drink plenty of water to stay as cool as a cucumber in the forest.

Respect Wildlife

Bigfoot isn't the only critter in the woods. Be kind and keep your distance from all animals.

Use Your Inside Voice

Keep noise to a minimum to avoid scaring Bigfoot.

Report Findings

If you see something suspicious, report it to your guide. Bigfoot sightings are serious business!

Respect the Environment

Leave no trace. Leave nature as beautiful as you found it.

Have Fun!

Enjoy the adventure and keep your eyes peeled. You never know when Bigfoot might make an appearance!
